1. Introduction

BMX Norway and the town of Sandnes is honored to welcome you to UEC BMX European cup round 9 and 10.

BMX Norway has a long history of hosting large events going back to the BMX World championship in 1991. Our last event was the UCI Supercross series held in Randaberg arena.

This time we would like to invite you all to Velde Arena just outside the town of Sandnes. The track was finished in 2013 and has been one of Scandinavia's most challenging tracks for both BMX and Supercross. The organization is a partnership of five local clubs and the track is the home track of Tore Navrestad and Silje Fiskebekk, the fastest riders in Norway at the moment for Men and women.

2. Velde Arena Sviland BMX

The track Velde Arena consist of two start hills and 3 double straights.

The Supercross track has a 8m hill and consists of a pro section and rhythm section. The 5m hill is as steep and challenging as an SX start just lower.

The track is know for great flow and big open turns, making for great racing.

80% of the track is covered in bricks so the track is super fast.
